About me

I am majoring in software engineering.

I'm familiar with C#, ASP.NET MVC, .NET WEB API, Java, and Android.

I am also interested in MIDI and music programming.

Currently, I am focusing on web development with ASP.NET and ASP.NET Core. and I also have some experience working with this framework.

My goal in the next 3 years is to become a software developer specializing in the.NET and.NET CORE frameworks.

EDUCATION

SOFTWARE ENGINEER

2017 - 2022

VNUHCM - UNIVERSITY OF
INFORMATION TECHNOLOGY

PERSONAL PROJECTS

COFFEESHOP_NETMVC

1/3/2022 - 1/8/2022

- <https://github.com/LongKelvin/CoffeeShopNetMVC>
- C# .NET MVC, ANGULARJS
- CoffeeShop is a personal project I created with the aim of applying the knowledge I have learned to create a website for small and medium-sized coffee shops.
- Coffeeshop is made to perform the duties of an e-commerce website, such as managing products, placing orders, and accepting payments online through services like MoMo and Internet banking.

EZMIDI PIANO

1/9/2020 - 30/7/2021

- <https://github.com/LongKelvin/EzMidiPiano>
- JAVA ANDROID, C++ JNI
- EzMidiPiano is an Android app provides a Midi connection and javax.sound.midi for the Android phone.
- EzMidiPiano allows the use of a MIDI controller device to play synthesizer sounds.
- It contains many instruments for playing and testing midi devices, as well as the ability to bind Midi data to the keyboard.

ASSET MANAGEMENT

2019 - 2020

- C# .NET CORE, ANGULAR 8
- https://github.com/LongKelvin/ASPNET_CORE_QLST
- Asset management for business

MINI SHOP MANAGEMENT APPLICATION

2019 - 2019

- C# WINFORM, SQL SERVER
- <https://github.com/LongKelvin/QLST-1>
- A small management app in C# Winform
